Extra-Strength Salve with Phytocannabinoid Rich Hemp Oil and IMMUN™ (ACEMANNAN)

BENEFITS:

- Easily applied and absorbed
- Rich emollient moisturizer for more youthful skin
- Eases irritation, soreness and great for pre and post workout
- Help soothe and ease discomfort and tension
- Feel the tingle!

BALMS VS SALVES

In the growing world of hemp topicals, there are many balms and salves. What's the difference? Most balms sit on the skin and have to be rubbed in, while salves absorb into the skin. Salves are softer than balms and can be applied with a fingertip or small spatula.. Balms contain more beeswax and are harder. Evolv's Ease utilizes a transdermal delivery system to optimize the incredible benefits of the phytocannabinoid rich hemp oil and Acemannan which when combined with the benefits of the certified organic essential oils, provides immediate absorption through the skin for a quicker easing of tension and discomfort. That extra tingle adds that special "wow" factor!

These essential oils are powerful and beneficial, so wash your hands after using the salve!

ADDITIONAL INFORMATION

ACEMANNAN – THE GAME CHANGER

There are many hemp oil products that have been formulated with additional ingredients to provide support for specific benefits like improved sleep, mood and joint health. One of the most profound impacts has come from the addition of nature's most powerful molecule, aloe vera Acemannan.

Combining the immune modulating fractions of Acemannan with phytocannabinoid rich hemp provides a symbiotic impact (1 + 1 = 4) that can dramatically enhance overall immune support.

Each jar of EASE is blended with a proprietary blend of these rich hemp cannabinoids and Acemannan aloe vera extract with an emollient blend of certified organic essential oils, a powerful combination to ease tension and discomfort naturally.
