INTEGRATIVE HEALTH

REAL PEOPLE, REAL RESULTS

"All the products have helped shape me into a healthier and more confident person from head to toe. These products showed me what it feels like to be healthy!"

— Brandy W., MN

ACEMANNAN'S SYNERGISTIC IMPACT

While each of the powerful products in this Reboot has its own validated health benefits, it is the synergistic effect of combining them with Evolv Immün (our proprietary Acemannan Aloe vera extract) that helps achieve such phenomenal "2 + 2 = 8" results.

Integrative health combines the benefits of conventional medical practices with advanced nutritional support to achieve best patient outcomes for health and well-being. The Integrative Health Reboot is perfect for integrating and targeting immune, digestive, hormonal and natural inflammation support... a great boost for those ready to help the body address overall well-being, comfort, and digestion.

- EVOLV IMMÜN for immune support
- EVOLV BALANCE for natural hormone support
- EVOLV LIMITLESS to help the body address the risk factors of inflammation

Incorporating the Integrative Health Reboot into your daily routine is a natural and powerful way to support ideal health.

ADDITIONAL INFORMATION

In 2005, it was discovered that only specifically-sized fractions of Acemannan (Aloe vera's bioactive molecule) were small enough to be absorbed directly into the blood stream, and other slightly larger fractions actually facilitated the plant's amazing immunomodulatory ("immune balancing") effect. Immūn contains a proprietary concentration of these immune balancing Acemannan fractions, offering powerful integrative health support. Each of the products in our Integrative Health Reboot contains this proprietary Acemannan formulation.

Betalains, a natural compound found in various fruits & vegetables, is known as "nature's anti-inflammatory." The active ingredient in Limitless contains the highest concentration of betalains from beet root extract available with zero sugar, due to a patent-pending chemical-free extraction process. In a study, this formulation was found to reduce inflammatory markers up to 48%.
