## MORE ENERGY NATURALLY

### REAL PEOPLE, REAL RESULTS

“I can’t live without my Fix every day! It gives me great clarity and energy, which I appreciate as a mom of three and businesswoman.”  
— *Cindy C., PA*

### ACEMANNAN’S SYNERGISTIC IMPACT

While the active ingredients in Evolv Fuel have their own validated health benefits, it is the synergistic effect of combining them with Evolv Immūn (our proprietary Acemannan Aloe vera extract) that helps achieve such phenomenal “2 + 2 = 8” results.

Evolv Fix, a delicious berry drink mix, is a natural way to boost energy, mental clarity, recovery, and help the body manage stress and stress-related eating. It contains ingredients to help the body’s normal functions by providing:

- A high boost of clean energy
- Balanced cortisol levels to help reduce stress
- Advanced immune support
- Inflammatory defense
- Reduction of sugar cravings

Most energy drinks overstimulate your adrenal glands, spike your blood sugar, and cause a buildup of lactic acid (“dirty energy”) and free radical damage, potentially resulting in adrenal fatigue. ElevATP® helps your body boost “clean” cellular energy, without damaging lactic acid build up or unnecessary adrenal stimulation.

## ADDITIONAL INFORMATION

SensorilTrim®AC is a proprietary nutraceutical complex of ingredients. It contains SensorilTrim®, a multi-patented, standardized extract of the adaptogenic (balancing) Ayurvedic botanical Ashwagandha, which helps reduce excess stress. In human clinical trials, it was found to significantly lower elevated cortisol levels.

SensorilTrim®AC also contains a patented fiber complex with multiple health benefits. It is an effective prebiotic, and it also supports healthy digestive function.

In 2005, it was discovered that only specific-sized fractions of Acemannan (aloe vera's super-molecule) were small enough to be absorbed directly into the blood stream. Other (slightly larger) fractions facilitated the plant's amazing immunomodulatory ("immune balancing") effect. Evolv Immūn contains a proprietary concentration of these immune balancing Acemannan fractions, offering powerful integrative health support.

Adenosine Triphosphate (ATP) is referred to as the "energy currency" between cells. ElevATP™ is a proprietary ingredient from natural sources that was shown via a clinical study to increase blood ATP levels as much as 64% with no increase in lactic acid or free radicals (oxidative stress).

ElevATP® is the winner of the 2018 Sports Nutrition Ingredient of the Year.
